

Only Ethical Software – No Forks – No Corporates – No Canonicals or Blobs of Useless Shitty Code – Original Code Only

**Only Ethical Software – No Forks – No Corporates
No Canonicals or Blobs of Code That are Not LXQT ...**

##//!!-----!!\\## ;

**Since we know Canonical / Ubuntu sends your searches to
them we will use Debian 64 Bit as the Original And Only
Ethical Software to go to Dissenter*com and Brave*com
for Ethical Web Browsing to Block Trackers**

**[https://cdimage.debian.org/debian-cd/current-live/amd64/
bt-hybrid/debian-live-10.8.0-amd64-lxqt.iso.torrent](https://cdimage.debian.org/debian-cd/current-live/amd64/bt-hybrid/debian-live-10.8.0-amd64-lxqt.iso.torrent)**

**Apply The MAJOR Security Audit: chmod -R 000 / cd ..
/(s)bin /user/(s)bin – sudo sudoedit doas gksudo ssh-agent
cupsd /etc/(default) avahi avahi-daemon bluetooth(d) su
rfkill block bluetooth(d) killall ssh-agent/cupsd
(computer and user name to usr, then Luks Encryption)
sudo -i / su root / passwd root/usr/guest/debian
date | base64 > copy > ctrl-shift-v-five-times to lock it ...
apt-get update/install gufw > public > Incoming > rejected
Set up a WiFi Manager and Spoof The Mac and DNS
Address ... f4:f4:f4:f4:f4 / 45.60.1.1 / FreeDNS.Zone ...**

##//!!-----!!\\## ;

**Systemd is only a Major Problem in Ubuntu /
Canonical ... What we will do is Run Dissenter*com /
Brave*com in Crappy Debian and Expect More Average
Numbers, This is the Shell Company We Love and
Trust ... 9/11 was a Mossad Operation Dick Joke Job ...**
